Bad Stomach Makes Bad Blood.

Bad Blood.

You can not make sweet butter in a foul, unclean churn. The stomach serves as a churn in which to agitate, work up and disintegrate our food as it is being digested. If it be weak, sluggish and foul the result will be torpid, sluggish in foul the result will be torpid, sluggish in liver and bad, impure blood.

The ingredients of Dr. Pierce's Golden Medical Discovery are just such as best serve to correct and cure all such derangements. It is made up without a drop of alcohol in its composition; chemically pure, triple-refined glycerine being used instead of the commonly employed alcohol. Now this glycerine is of itself a valuable medicine, instead of a deleterious agent like alcohol, especially in the Chief weak stomach, dysepsia and the various forms of indigestion. Prof. Finley Ellingwood. M. D. of Bennett Medical College, Chicago, says of 19.

In dyspensia it serves an excellent purpose.

It is one of the best manufactured products of the present time in its action upon endeabled, disordered stomachs, especially if there is uheration or catarrhal gastrilis cal grins in the present time in the action upon endeabled, disordered stomachs, it is a mat efficient preparation. Giventhe will relieve many cases of pyrosis thearthum and excessive gastric acidity. It is suchal in

a most efficient preparation. Giverring relieve many cases of pyroois (hearthurm) excessive gastric actionty. It is useful in once intestinal dyspepsia, especially the utent variety, and in certain forms of onic constipation, stimulating the secretar descretory functions of the intestinal dis."

when combined, in just the right proper then combined, in just the right proporties, with Golden Seal root, Stone root, else Cherrybark, Queen's root, Blood-dand Mandrake root, or the extracts of sec as in Dr. Pierce's Golden Medical servery, there can be no doubt of its at efficacy in the curs of all stomach, er and intestinal disorders and derangents. These several ingredients have a strongest endorsement in all such set of such eminent medical leaders as of. R. Bartholow, M. D., of Jefferson Medicolless, Chicago, Prof. Hobart A. THE POPE DEFIES FRANCE. France seems to face an alarming religious crisis. Saturday eight's reports of the Pope's eleventh-hour rejection of the government's final profler, under which Catholic worship could be continued under the common law, turn out to be only too true, and the deadlock is now ap-parently complete. According to the pontiff's orders, declarations under the law of 1881 are prohibited, but the parish priests must remain in their churches

until driven out by violence.

The official confirmation of this com sunication has created a sensation, both in government and Catholic circles. Cardinial Lecot, archbishop of Bordeaux; Archbishop Germain and others who already had advised compliance with the law have hastily instructed the parish priests of their dioceses that their former advice is null and void, and yesterday in all the churches of Paris bishops and priests, after mass, read the letter from Cardinal Richard, archbishop of Paris, communicating the decision of the Holy See to "continue services to the churches, but abstain from any declaration," and Cardinal Richa d's own instructions, in view of the order issued by the Perfect of the Seine Saturday, not to premit for the present the employment of ceremoni draperies at marriages and funerals.

The church wardens, whose legal e istence expires next Tuesday, were than ed yesterday from the pulpits of the various churches. Prayers were offere tor divine protection during the comis period of persecution.

The government regards the action the Pontifi as little less than a summo of the French Catholics to open rebellio as rendering the situation exceeding grave, and possibly entailing deplorab

prisequences.

Premier Clemencesu and M. Briand, minister of public worship, were in con-ference all day yesterday. There is no ign of the government faltering, but it recognizes that it may be forced to resort to extreme measures. M. Briand said vester lay that the decision of the Pope was entirely unexpected.

"The encyclical is very grave," said M. Briand. "While condemning the law of 1905, it advised recourse to the ommon law. Although the refusal to form cal ural associations was, in my opini t, an error, and touthe detriment of ne church, it was the church's legal ght so to refuse. In a spirit of conciliaion, out of respect to the consciences of the French Catholics and in order to do nothing to disturb peace and tranquility, Night Cure simple declaration in accordance with the

"The P pe's brutal order to the clergy to reject this offer practically incites them to violate the laws of the country. He no longer acts as the spiritual head votor of Hale Said to Indicate a Per- of the church, as the canonical objections against the law of 1905 cannot be nvoked against that of 1881. The Pope row assumes a political leadership, and the vital question is whether the Catholies of France will consent to follow him or not. If they do, the government will act with even greater energy because of the tolerance it has manifested hereto fore. Every violation of the law will be prosecuted, and, furthermore, special measures, legislative and otherwise, may be taken."

The special measures referred to by M. Briand are those intimated by Premier Clemenceau in the Chamber of Deputies, namely, to strip the clergy of their privileges, compel them to perform military service, and, as a last resort, to treat them as foreign subjects.

Insane Man in Street Car.

Elmer McNeal, a demented coal miner, armed with two revolvers, yesterday shot indiscriminately at passengers in a crowded trolley car in Jackson, Ohio, instantly killing Harry White, probably mortally wounding J. D. Van Atta, of Newark, Ohio, and severe'v wounding J. E. Kinnison, superinten dent of the public schools of Jackson. McNeal was finally thrown through the car window. Reloading the pistols, he went uptown, pursued by officers and citizens, who shot him through the head, mortally wounding him, after a running

fight McNeal was twice a patient at the Athens Insane Asylum, but was not viclent. He was not known to any of the

Tunnel Under East River, Manhattan and Brookiya boroughs

were connected under the East river Saturday by the piercing of the last section of earth which reparated the ends of the north tube of the tunuel of the rapid transit reilroad excession, 75 feet beneath the surface of the river, and by joining by a 10-nch pipe the two botes of the tunnel. The shield which had teen boring from the Manbattan side and that which had been boring from the Brooklyn side were stopped when shout 65 feet spart, and preparations were made to connect with the pipe to were made to connect with the pipe to give the engineers an opportunity to check up their lines before the final closure of the shields. With powerful jacks, with water and air pressure, the pipe was "washed" through the earth, with the Brooklyn shield moving behind it and the Manhattan shield stationary The East river tunnel extends from the Battery to Joralemon street, Brooklyn. When the tracks are laid it will form part of the subway rapid transit system from Kingsbridge to Brooklyn.
